MULTI-SHOT ROBOTIC EOD DISRUPTER

MISSION ADVANTAGE

Faster and Safer Operations
Remotely Controlled Shot Selection
Multiple Threat-Specific Reloads

- » Select and load your shot after robot is downrange
- » Choose standard 12-gauge EOD loads + water shot
- » Remotely control all operations at standoff

EIGHT SHOTS, ONE TRIP

MULTI-SHOT ROBOTIC EOD DISRUPTER

INTEGRATED RECOIL MITIGATION MOUNT

- » Protects and extends EOD robot lifespan
- » Eliminates risk from debris
- » Adaptable to most UGV and other platforms

SNAP-ON PRECISION AIMING SYSTEM

- » Sold separately
- » Enables continuous standoff operations
- » Increases accuracy with AR-based targeting

MISSION DRIVEN CAPABILITY

MRED provides Explosive Ordnance Disposal teams the power and versatility of eight 12-gauge disrupters in a compact, single barrel system for continuous standoff operations. With MRED, operators remotely control load selection after sending the robot downrange, fire the round, and reload in place to neutralize multiple target classes in the same trip.

The MRED platform includes a debris-free disrupter recoil mitigation system to support safe and reliable operation on small and medium size EOD robots, and can be equipped with Augmented Reality Precision Aiming for use in complex environments.

PLATFORM FEATURES

- » Compatible with standard EOD 12-gauge cartridges
- » Remote-controlled magazine for loading, firing, and water injection
- » Integrated recoil-reduction system with no counter-shot debris
- » Lightweight modular mount supports most EOD robots
- » Optional AR Precision Aiming for complex or low-visibility environments

OPERATOR ADVANTAGES

- » Fire up to 8 shots in any sequence in one trip to maximize robot operational effectiveness
- » Switch between shot types including water remotely with graphical interface
- » Safely move unloaded robot downrange to target before arming system
- » Neutralize multiple targets with appropriate shots chosen after threat inspection
- » Maintain full operator standoff and reduce overall mission time
